

Journal - Office of Legislative Counsel
Monday - 30 July 1973

Page 3

12. (Unclassified - GLC) Joe Kashi, on the staff of the Joint Economic Committee, called and asked if we had any unclassified information on the percentage of the defense budgets of the Warsaw Pact nations that were devoted to NATO. He said that he was working on MBFR's and had figures from ACDA tables for the period 1961 to 1970 but had no figures for 1971, 1972 or 1973. I told Kashi it was highly unlikely that we would have any unclassified Agency figures, but that I would check with our people to see if they could refer him to such figures elsewhere.

13. (Unclassified - GLC) Talked to Guy McConnell, Senate Appropriations Committee, who asked if we would provide him with the budget figures for those agencies mentioned in Mr. Colby's letter to Chairman McClellan of 27 July on the subject of the disclosure of intelligence budgets.

14. (Unclassified - GLC) Received a call from Phillip Haier, Ervin's Select Committee on Presidential Campaign Activities, regarding the possible appearance of Mr. Helms. Haier said their schedule was completely up in the air and he wondered if it would be possible for Mr. Helms to stay in Washington until early next week on the possibility that the Committee might have him appear at that time. I told Haier that I knew Mr. Helms was anxious to get back to [] and was staying this week principally to be available if the Committee desired his presence. I said it would be unfortunate if he were to stay over further and not be called. At this point, Haier suggested that I ask Mr. Helms to contact Dave Dorsen, Assistant Chief Counsel, to work out the timing with him. I told Haier I would pass the message on to Mr. Helms. I also said that I assumed General Walters' appearance would fall into the same scheduling problem as Helms and Haier said it would. He suggested that Walters might also want to call Dorsen directly.

I took this opportunity to ask Haier to pass a message to Rufus Edmisten, Deputy Counsel. I referred to the fact that James Calloway, Senate Appropriations Committee staff, had given Edmisten a copy of Volume III of our documents but I said we were also interested in briefing Edmisten on several matters involving Mr. Robert Bennett who we understand will be testifying before the Committee. Haier said he would convey the message to Edmisten.
